

IN THE DRAWINGS

Applicants propose to label the blocks in Figs. 1-3 and to revise Fig. 1 in accordance with the accompanying ANNOTATED SHEETS SHOWING CHANGES.

Enclosed herewith are REPLACEMENT SHEETS in which the above changes have been incorporated.

REMARKS

The claims have been amended to more clearly define the invention as disclosed in the written description. In particular, the claims have been amended for clarity.

The Examiner has rejected claims 1-10 under 35 U.S.C. 112, paragraph 1, as containing subject matter which was not described in the specification.

Claims 1, 7 and 9 have been amended to cancel the statement that the PLL received tuned signals. Applicants believe that these changes answer the Examiner's 35 U.S.C. 112, paragraph 1, rejection of the claims, and respectfully request withdrawal thereof.

The Examiner has objected to the drawing in that the added arrow from the top of AFT 32 over to the top of PLL 31 is New Matter. Enclosed herewith are new ANNOTATED SHEETS SHOWING CHANGES and REPLACEMENT SHEETS in which said arrow has been eliminated.

Applicants believe that this application, containing claims 1-10, is now in condition for allowance and such action is respectfully requested.

Respectfully submitted,
